Subject RE: Omega schedule

Hi Chris:

We are proceeding to define and develop the tech. memo defining the task and seeking approval from OPOG, soon

I'll keep you posted

Chuck

Subject: Omega schedule

Hi Chuck. I got the revised project schedule and it looks good. Please note that EPA will require a letter addendum to the work plan that discusses deep well installation and sampling. We can discuss well location and construction before and/or after the addendum is submitted. The EPA Quality Assurance Office will also need at least a couple of weeks to review and comment on the addendum, so please keep that in mind. Thanks and let me know if you have any questions.

Chris
